The Department of Biostatistics and the Lineberger Comprehensive Cancer Center (LCCC) at the University of North Carolina at Chapel Hill are seeking a non-tenure track faculty member with expertise in basic cancer research including but not limited to genomics, genetics, proteomics, and computational biology to collaborate with cancer researchers in these areas. This position is open at the Clinical or Research track and at the Assistant or Associate Professor level. For the Research track position, the faculty member is expected to engage in independent methodological research. The LCCC is one of 27 NCI-designated comprehensive cancer centers. Applicants should hold a PhD in biostatistics or statistics, and possess good communication skills. This position will remain open until filled.

To apply, use the electronic submission website at https://unc.peopleadmin.com/postings/32860 and upload PDF versions of your CV, cover letter, and research and teaching statements. Candidates must also arrange for three letters of recommendation to be emailed to vera_bennett@unc.edu addressed to:
